Agenda

GIE Transparency Roundtable
EU Storage and LNG infrastructure operators
contributing to market transparency

8 November 2022, 15:30-16:30, Online meeting

1. Introduction

Welcoming remarks (5 min)
by Mr Ákos KRISTON, GIE Board Member, CEO Hungarian Gas Storage

2. Data Analysis session (20 min)

- **Winter is coming :** how to use GIE transparency data for data analysis
  GIE input & perspective on storage and LNG contributions during current energy crisis

- **AGSI-ALSI data usage & analysis**

  Data definitions
  - AGSI-ALSI & REMIT reporting base

  Data source
  - Direct data provision by operators / country consumption data

  Data reporting
  - Storage levels vs WGV : exceptional situation
  - Storage filling levels : data charts, calculation basis, WGV & country view
  - Unavailability reporting : GANTT chart
  - New accounts (German SSO, new LNG terminals)
  - New (printed) maps & databases

- **Advertising opportunities**
  AGSI-ALSI Traffic update

3. Technical session (20 min)

- **AGSI & ALSI Transparency Platform upgrades**

  - Stability & security upgrades since April
    (bandwidth throttling, Pagination, API calls limiting, code engine update)

  - Retroactive updates / historical data coverage
    (changelog & LastModified, timing, data clarification, coverage)

  - Geographical coverage
    (covered capacities by country)

  - Consumption data
    Stock/Cons datafield: data definition, BP data source, historical data coverage

  - Unavailability data
    UMM reporting on IIP (by MP) versus AGSI Unavailability data by SSO

  - Data visualisation tools
    Infographics, charts
    Interactive maps
    > composition: annual updates + live datafeed
    > API feed for map data (coordinates definition)

  - API service
    API Manual V7 – changes & implementation
    Python & other languages, GIThub external support
    API feed contains NEWS info items
    API feed for unavailability reporting
    API testing platform

  - Future development
    Interactive map for unavailability reporting
    Interactive map for LNG available capacities
    Additional map functionalities (data export, search, icon view, aggregation)
    Additional data visualisation tools (Flow data, audience inquiry on needs)
    Mobile app (audience inquiry)

  - Data usage
    AGSI/ALSI data usage & repacking – crediting and API key

4. Q&A (10 min)

- Audience expectations and feedback

5. Conclusion (5 min)
