Conference ID: 335 347 435#

This webinar will bring together high-level speakers from the European Commission, the Polish Presidency of the Visegrad Group, the European Parliament, the energy industry and academia.

During this online workshop, you will learn about the latest steps of the different Central-Eastern and South-Eastern European countries towards a sustainable decarbonisation of their regions, their ambitions and expected pathways in the transitional period as portrayed in their final National Energy and Climate Plans (NECPs).

The spectrum of panellists will tackle the resilience of the gas infrastructure sector in the recovery period and exchange views on the upcoming European Commission's strategies on Energy System Integration and Hydrogen.

For a foretaste, please find below the agenda of the event:
